

1. What are the most challenging aspect of the coursework task?

This course work was given to us as a part of our academic in python. This is a small type of project which almost every program had or have to do in some point of time. We are thankful because we got chance to do as our course work.

2. How did you go about completing the task?

We have no any idea about it For that first thing we did was we research about the program how it work what should be included and we also take some idea from our teacher in which they give us some rough idea about the course work . There were lots and lots simple simple error while completing this course work.

3. What have you learned over the course of completing this coursework task?

We got to learn lot of things while doing this project. First thing we learned was to how to think in a different way. Everyone know about it but no one had how to build it. We also got encourage to much more project excluding what we get from our collage.
